

HOW YOU CAN HELP TURKIYE & SYRIA

Turkiye and Syria have been hit by several strong earthquakes and after-shocks. The damage is enormous: buildings have collapsed, many thousands of people have been injured and the death toll has now risen to more than 30,000 people. Many people are unprotected in the icy cold due to the risk of collapse.

Please don't forget that even a few euros could save the life of a person. Especially foreign donations make a big impact because of the currency exchange rates.
